

COTTONINFO

HELPING YOU GROW

www.cottoninfo.com.au

CottonInfo is a joint extension partnership between the Cotton Research and Development Corporation, Cotton Australia and Cotton Seed Distributors Ltd. The program was established in 2012 and is designed to connect growers and consultants with research.

The CottonInfo team - made up of Regional Extension Officers, Technical Leads and myBMP Managers - takes research and development ideas and outcomes and turns it into practical information and knowledge that's designed to *Help You Grow*: grow cotton, grow knowledge, and grow industry connections.

Stay connected

- Make sure you're on our mailing list! This will ensure you receive our weekly enewsletters, special industry alerts, the monthly Moisture Manager news, as well as annual hard copy publications including the Australian Cotton Production Manual and Cotton Pest Management Guide. Subscribe or updated your details at **www.cottoninfo.com.au/subscribe**
- Have a specific question? Or something technical? We can help. Find the right CottonInfo team member to help you at **www.cottoninfo.com.au/about-us**
- Be sure to take advantage of any industry events in your area to connect with other growers, researchers, industry members & the CottonInfo team.

IS A JOINT INITIATIVE OF
